*Teach me, Father, how to go  
Softly as the grasses grow;  
Hush my soul to meet the shock  
Of the wild world as a rock;  
But my spirit, propt with power,  
Make as simple as a flower.  
Let the dry heart fill its cup,  
Like a poppy looking up;  
Let life lightly wear her crown,  
Like a poppy looking down.*

—EDWIN MARKHAM.

# THE GARDEN THAT IS DIFFERENT

Spring again! Our flowers again! With what joy we meet the first opening bud and in anticipation wander on through another year's long procession of beauty!

In presenting our catalog this season, we would draw attention to the exceptional values we offer in *landscape gardening*. Whether you have new grounds to be designed and planted or old garden beds to be restored, we can bring to them a knowledge born of living close to our flowers. An intimate understanding of each variety—its requirement for growth, time of bloom, harmonious combination with other plants—permits us wide choice of material to attain desired effects. We offer also the advantage of the lower cost we are able to afford, in that we furnish from our own Gardens the plants required. We plant *small* gardens as well as large.

Within reasonable radius of Hildemere *we deliver* by automobile. We feel, however, that whenever practicable you will prefer to come yourselves to our Gardens where you may see the plants growing and make your personal selection.

VISITORS WELCOME EVERY DAY EXCEPT SUNDAY
